Abstract [English]

'as the article of the same author in no. 33 of the za-
informationen introduced the statistical basis of log-
multiplicative models, the following work will only deal with the
extension of these models to the 'anoas'-model. using an
example from transformation research, several different
restrictive versions of the anoas-model will be explained.'
(author's abstract)|

Keywords: Ethnic identity, acculturation orientations,
domain specificity

Abstract [Deutsch]

'während der beitrag des gleichen autors in heft 33 der za-
informationen in die statistischen grundlagen log-
multiplikativer modelle einführt, behandelt die folgende arbeit
die verallgemeinerung dieser modelle zum allgemeinen
assoziationsmodell 'anoas'. an hand eines beispiels aus der
transformationsforschung werden einige unterschiedlich
restriktive versionen des anoas-modells erläutert.'
